OSBI COMMISSION

The OSBI Commission consists of one sheriff, one district attorney, one police chief, and four lay members. Each member is appointed by the Governor and approved by the Senate to serve a seven-year term.

The Commission has five statutory responsibilities: to appoint the Director of the OSBI; to hear complaints against the OSBI or any of its employees; to make recommendations to the Director of any needed disciplinary action as a result of any investigation conducted upon a complaint received; to establish general procedures with regard to assisting law enforcement officer and district attorneys; and to establish a program of training for agents. The current Commission members are:

TED FARISS – CHAIRMAN, LAY MEMBER

Mr. Fariss is a farmer and rancher in Dewey County and serves as the Chief Operating Officer for the Bank of Western Oklahoma in Elk City. Mr. Fariss was appointed to the Commission by Governor David Walters in 1994, re-appointed to a second term in 2011 by Governor Frank Keating, and appointed to a third term by Governor Brad Henry in 2008.

SHERIFF STANLEY GLANZ, VICE CHAIR

Mr. Glanz has served as the Sheriff of Tulsa County since 1989. He was appointed to the Commission as the Sheriff Member by Governor Henry Bellmon in 1989 and re-appointed by Governor Frank Keating in 1995 and 2002. Governor Brad Henry re-appointed Sheriff Glanz in 2003 and in 2009.

ANNE HOLZBERLEIN, LAY MEMBER

Ms. Holzberlein joined the Commission in 2003 with several years of community service that includes the Edmond Board of Education, Edmond Women’s Club, and the Women in Leadership organization. Ms. Holzberlein brings to the Commission experience in administration through the private sector. Ms. Holzberlein was appointed to the Commission by Governor Brad Henry in 2003 and again in 2010.

DANNY FORD, CHIEF MEMBER

Mr. Ford has more than 26 years of law enforcement experience with emphasis on street patrol, firearms instruction, training supervision, and administration. Mr. Ford has been the Chief of Police for the Duncan Police Department from 1995-1999 and 2009 to present. Mr. Ford previously worked as Assistant Professor of Criminal Justice for Cameron University from 1999-2009. Mr. Ford was appointed to the Commission by Governor Brad Henry in 2010.

MICHAEL J. FIELDS, D.A. MEMBER

Mr. Fields serves as the District Attorney of District 4 which is comprised of five counties: Blaine, Canadian, Garfield, Grant, and Kingfisher. Before becoming District Attorney in January of 2011, Mr. Fields served as an Assistant District Attorney for approximately 14 years. Mr. Fields was appointed to the Commission by Governor Mary Fallin in 2011.

MIKE WILKERSON, LAY MEMBER

Mr. Wilkerson was appointed to the Commission in 2005 by Governor Brad Henry. He previously worked as an OSBI agent from 1973 to 1978 and also served as an Inspector in the OSBI Investigative Division. The Atwood native is an attorney, author, filmmaker, and CEO of the Tulsa-based Orion System. Mr. Wilkerson joins the Commission as one of the four lay members.

RUSSELL NOBLE, LAY MEMBER

Mr. Noble is the President of the Sea Cattle Company and the Quien Sabe Corporation in Ardmore. Mr. Noble is a Trustee of the Samuel Roberts Noble Foundation. Mr. Noble was originally appointed to the Commission by Governor Frank Keating in 1997. Mr. Noble was re-appointed by Governor Brad Henry in 2004 and again by Governor Mary Fallin in 2011.

INTRODUCTION

BACKGROUND

The Uniform Crime Reporting Program (UCR) was conceived, developed, and implemented by law enforcement for the express purpose of serving as a tool for operational and administrative purposes. Under the auspices of the International Association of Chiefs of Police, the UCR Program was developed in 1930. Prior to that date, no comprehensive system of crime information on a national scale existed. This was primarily because criminal statutes varied so greatly from state to state in their use of terminology to define criminal behavior. To overcome this problem, a set of definitions for specific criminal acts was devised. These definitions were developed following an in-depth research effort relative to each of the state criminal extant statutes. It was determined that law enforcement agencies would tabulate the number of criminal acts as defined by the UCR Program as these acts were brought to their attention. Recognizing the problem of coping with sheer volume, it was decided that only those criminal acts deemed serious would be counted. It was necessary to define "serious." In this regard, a criminal act is considered serious if it meets a set of criteria; namely, that the act would occur regardless of geographical location; that it would be an offense most likely to be reported to law enforcement; that it would affront the moral sensitivities of our society's rational being; and that it would occur with sufficient frequency so that counting it would be worthwhile statistically.

STATE UCR PROGRAM

During that period of time when UCR was still a concept, it was recognized that individual states would also need crime information of particular interest to the state but of no great importance to the national view of crime. It was not until the latter part of the 1960's that funds became available for states to consider the development of their own individual reporting systems.

The purpose for a state UCR Program is multifaceted. First, with personnel administering a state program, more direct and meaningful contact with individual contributors is realized. Second, the ability to expand contributions exists due to state personnel being readily available to lend assistance. Third, mandatory participation ensures a law enforcement agency will either enhance an already existent records system or will install one capable of producing the needed data. Fourth, the state personnel reviewing information emanating from law enforcement contributors and this information being checked at the national level, the validity and completeness of data are further ensured. Fifth, individual state programs can address problems that are unique to the state.

The Oklahoma State Bureau of Investigation assumed the statewide administration of the UCR Program on September 1, 1973. This document is the 36th annual report, presenting statistical information collected and compiled through the year 2010 with a comparative analysis of the years 2008 and 2009.

UNIFORM CRIME REPORTING PROGRAM

LEGISLATIVE MANDATE

The Annual Report "*Crime In Oklahoma*" presents criminal justice information in terms of offenses known to the police and criminal arrest activity in accordance with guidelines and regulations prescribed by law.

The Oklahoma Legislature, in establishing the Uniform Crime Reporting (UCR) statute, mandated the responsibility and authority for UCR data collection and dissemination to the Oklahoma State Bureau of Investigation. Guidelines established for the operation of the state's UCR Program are listed below:

SECTION 1. A Uniform Crime Reporting system shall be established under the direction, control, and supervision of the Director of the Oklahoma State Bureau of Investigation. The Director shall have the power and duty, by such rules and regulations as he may deem necessary, to collect and gather such information from such state, county, city, and town law enforcement agencies as may be and is hereinafter prescribed by law.

SECTION 2. The Oklahoma State Bureau of Investigation is hereby designated as the agency which shall collect, gather, assemble, and collate such information as is prescribed by law.

SECTION 3. All state, county, city, and town law enforcement agencies shall submit a monthly report to the Oklahoma State Bureau of Investigation on forms prescribed by the Bureau; which report shall contain the number and nature of offenses committed within their respective jurisdictions, the disposition of such matters and such other information as the Bureau may require, respecting information relating to the cause and prevention of crime, recidivism, the rehabilitation of criminals and the proper administration of criminal justice.

SECTION 4. Upon receipt of such information the Director shall have such data collated and formulated and shall compile such statistics as he may deem necessary in order to present a proper classification and analysis of the volume and nature of crime and the administration of criminal justice within this state.

OBJECTIVES

The fundamental objectives of the Oklahoma UCR Program are:

- (1) Inform the governor, legislature, and other governmental officials, and the public as to the nature of the crime problem in Oklahoma, its magnitude, and its trends.
- (2) Provide law enforcement administrators with criminal statistics for administrative and operational use.
- (3) Determine who commits crimes by age, sex, and race in order to find the proper focus for crime prevention and enforcement.
- (4) Provide base data and statistics to measure the workload and effectiveness of Oklahoma's criminal justice system.
- (5) Provide base data and statistics to measure the effects of prevention and deterrence programs.
- (6) Provide base data and statistics for research to improve the efficiency, effectiveness, and performance of criminal justice agencies.
- (7) Provide data to assist in the assessment of social and other causes of crime for the development of theories on criminal behavior.
- (8) Provide the FBI with complete UCR data to be included in the national publication "*Crime In the United States.*"

REPORTING AND COLLECTION PROCEDURES

Under the Oklahoma UCR statute, all state, county, city, and town law enforcement agencies are required to submit crime reports.

The Field Services Unit, in an effort to maintain quality and uniformity in the data received, furnishes field representatives, who provide training in Uniform Crime Reporting procedures. Because a centralized records system is necessary to the sound operation of any law enforcement agency and is an essential basis for crime reporting by the agency, the Field Services Unit provides technical assistance to any law enforcement agency in the establishment or maintenance of a police records system.

On a monthly basis, law enforcement agencies report the number of offenses that become known to them during the month in the following categories: murder, manslaughter, forcible

rape, robbery, assault, burglary, larceny, and motor vehicle theft. This count is taken from a record of all complaints of crime received by the law enforcement agencies during their own operation.

Whenever complaints of crime are determined through investigation to be unfounded or false, they are eliminated from the actual count. The number of "actual offenses known" in these crime categories is reported without regard to (1) whether anyone is arrested for the crime; (2) the stolen property is recovered; (3) the local prosecution policy; (4) any other restrictive considerations. On a monthly basis, law enforcement agencies report the total number of reported crimes which they clear, either by arrest or exceptional means (a crime solution or clearance recorded when some element beyond law enforcement control precludes the placing of formal charges against the offender.) A separate count of crimes cleared which involve only persons under the age of 18 is shown. To supplement the offense information, such data as the value of property stolen and recovered, circumstances surrounding homicides, additional information concerning assaults on police officers, and other pertinent information is collected.

In addition, monthly reports for all persons arrested on all criminal offenses are collected. These reports provide age, sex, race, and ethnic origin information on each person arrested, with the adult and juvenile arrests reported separately.

As required by legislative mandate, the UCR offenses reported are also utilized to identify domestic abuse and hate/bias motivation crimes.

Law enforcement employees' data specifically encompasses the number of sworn and civilian personnel and is collected annually.

VERIFICATION

A primary consideration in the collection of criminal statistics in the State of Oklahoma is the uniformity and accuracy of the data. The Oklahoma UCR Guide Manual and personal instruction by field representatives do not necessarily guarantee the accuracy of the reports submitted by the contributors.

Each report received is recorded, examined and verified for mathematical accuracy and, more importantly, for reasonability. The validity and possibility of duplication are checked numerous times to avoid misinformation.

Minor errors are corrected by telephone between the field representative and the reporting agency, while substantial variations are adjusted through personal visits. The personal contacts are invaluable to the accuracy and quality of reporting. Field representatives are engaged in constant educational efforts, such as providing a vital training link between the UCR Program and the contributor.

USES OF CRIMINAL JUSTICE DATA

Throughout history, crime has generally been perceived as a serious social problem. Criminal behavior is one of the major domestic concerns in our nation today, and our citizens have the right to be informed of the full nature, magnitude, and trend of the crime problem. Moreover, it is impossible to assess the real costs of crime in our society without such disclosure. Ultimately, the public pays the costs of criminality. Their behavior patterns are altered by their fear of attack; they suffer the consequences of physical assault and have their possessions stolen or damaged. They pay higher insurance rates because of offenses against their property and increased costs for goods and services due to business losses from organized or unorganized crime. The public has a right to know the full extent of these costs. They support the institutions of our criminal justice system with the taxes they pay and, as citizens in a democracy, they have the right and the obligation to appraise the allocation and effectiveness of limited governmental resources. Both individual cooperation and collective citizen action are required for crime reduction and the improvement of our criminal justice system. But cooperation and action will not be forthcoming unless and until citizens receive a more complete disclosure of the true nature of crime and criminal justice.

Effective solutions to the crime problem will depend on increased research to determine and assess the cause of crime and to develop and test theories of criminal behavior. All of these efforts require comprehensive and valid criminal statistics. Social scientists and professional criminologists require quantified data that will indicate who commits what type of crime in order to establish typical "profiles" of criminals. Such profiles can help determine the proper focus and direction of crime prevention programs.

Administrators at every level of the criminal justice process require information with which to measure their workloads, identify and solve operational problems, and evaluate effectiveness. The lack of valid and complete statistics is critical when the needs of these managers are considered. Data is required for program planning, development, budgeting, and evaluating; for estimating resource requirements and for allocating manpower and equipment. Information is also required to develop comparative norms of performance, for cost effectiveness studies and for establishing data bases with which to analyze the criminal justice system at the local level.

The usefulness of Uniform Crime Reporting is extensive for law enforcement agencies. Information provided by the report can be applied to areas of statistics and hard data, as well as to aspects of planning and research.

CLASSIFICATION OF UCR OFFENSES

Offense data consists of information extracted from reports of Part I offenses that have been submitted by law enforcement agencies in the State of Oklahoma.

PART I OFFENSE DEFINITIONS ARE AS FOLLOWS:

- 1a. Murder - The willful killing of a human being.
- 1b. Manslaughter - The killing of a human being by the negligence of another.
2. Forcible Rape - The carnal knowledge of a female forcibly and against her will, including attempts.
3. Robbery - The forcible taking of the property of another against his/her will by violence and fear, including attempts.
4. Aggravated Assault - An offer or attempt with unlawful force or violence to do physical injury to another.
5. Burglary (Breaking and Entering) - An unlawful or forcible entry of any structure to commit a felony or larceny, including attempts.
6. Larceny (Theft) - The unlawful taking of property with intent to deprive another of ownership.
7. Auto or Other Motor Vehicle Theft - The larceny or attempted larceny of a motor vehicle.
8. Arson - Willful or malicious burning with or without intent to defraud, including attempts.

All other crimes that are not classified as Part I offenses make up the Part II offenses. Information on these are only reported when an arrest has been made.

PART II OFFENSE DEFINITIONS ARE AS FOLLOWS:

9. Other Assaults (not aggravated) - Assaults and attempted assaults which are simple and minor in nature.
10. Forgery and Counterfeiting - Making, altering, uttering, or possessing, or attempts to make, alter, or possess with intent to defraud. Anything which is made to appear true.
11. Fraud - Fraudulent conversion of another's money or property by false pretenses.

12. Embezzlement - Misappropriation or misapplication of money or property entrusted to one's care, custody, or control.
13. Stolen Property - All offenses of buying, receiving, and possessing stolen property, as well as all attempts to commit any of these offenses.
14. Vandalism - Willful or malicious destruction, injury, disfigurement, or defacement of property without consent of the owner or persons having custody or control.
15. Weapons - Carrying, Possessing, etc. - All violations of regulations or statutes controlling the carrying, using, possessing, furnishing, and manufacturing of deadly weapons or silencers and all attempts to commit any of the offenses.
16. Prostitution and Commercialized Vice - Sex offenses of a commercialized nature, such as prostitution, keeping a bawdy house, procuring or transporting women for immoral purposes, and all attempts to commit any of these offenses.
17. Sex Offenses (except Forcible Rape, Prostitution, and Commercialized Vice) - Statutory rape, offenses against chastity, common decency, morals, and the like, including attempts.
18. Drug Abuse Violations - Includes all arrests for violations of state and local ordinances subdivided into the categories of possession and sale/manufacturing of narcotic drugs.
19. Gambling - Promoting, permitting, or engaging in gambling.
20. Offenses Against Family and Children - Nonsupport, neglect, desertion, or abuse of family and children.
21. Driving Under the Influence - Driving or operating any motor vehicle while drunk or under the influence of liquor or drugs.
22. Liquor Laws - State or local liquor law violations, except "drunkenness" and "driving under the influence."
23. Drunkenness - Drunk and disorderly.
24. Disorderly Conduct - Breach of peace (disorderly person.)
25. Vagrancy - Not reported in Oklahoma.
26. All Other Offenses - All other violations of state and local laws.
27. Suspicion - Not reported in Oklahoma.

28. Curfew and Loitering Laws - Applicable only to juveniles.
29. Runaway - Applicable only to juveniles.

OKLAHOMA STATE BUREAU OF INVESTIGATION

INDEX CRIME OFFENSES

The following three graphs illustrate the variations of the 2008, 2009, and 2010 total number of offenses by month. This information is based on the Oklahoma Crime Index.

The first graph represents the total number of index crime offenses occurring each month. The other two take the analysis further with breakdowns of violent crimes and non-violent crimes by month.

SUMMARY ANALYSIS

A total of 145,094 index crimes was reported in 2010. With 13,851 offenses, the month of July reflected the highest number of index crimes reported. The month of February showed the lowest number of reported offenses with 9,448 index crimes.

A further breakdown of the 2010 index crime offenses shows July had the greatest number of violent crimes with 1,807 offenses reported. The lowest number of violent crimes occurred in February with 1,286 offenses reported. A monthly analysis of the non-violent crimes indicates that July and February showed the highest and lowest number of offenses with monthly totals of 12,044 and 8,162 respectively.

This crime clock should be viewed with care. Being the most aggregate representation of UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of the Index Offenses. This mode of display should not be taken to imply a regularity in the commission of Part I Offenses; rather, it represents the annual ratio of crime to fixed time intervals.

MURDER

Definition: The unlawful killing of a human being in which the element of malice aforethought was present.

Any death due to a fight, argument, quarrel, assault, or commission of a crime is included. This index offense, as in all other crime index offenses, is scored by law enforcement officials on the basis of their investigation and does not include the findings of a court or the decision of a prosecutor. Manslaughters, suicides, accidental deaths, and justifiable homicides are excluded from this category. Attempts to kill and assaults to kill are scored as assaults and not as murder.

SUMMARY ANALYSIS

A total of 191 murders was reported by law enforcement agencies in 2010.

Murders accounted for 1.1% of all violent crimes and 0.1% of all index crimes reported.

A total of 139 murders was cleared by arrest or exceptional means, representing a clearance rate of 72.8%.

The 25-year-old to 29-year-old age group accounted for the highest percentage of persons arrested for murder at approximately 14.9% of the total. Of the 161 persons arrested for murder, 42.2% were White, 45.3% were Black, 9.9% were Indian, and 1.2% were Asian.

Firearms were employed in 56.0% of all reported murders. The use of a knife or other cutting device was involved in 16.2% of the murders.

The murder of one family member by another accounted for 31 offenses or 16.2% of all murders; 3.7% of the 191 offenses resulted from one spouse killing the other.

The victim-offender relationship was identified in 142 of the 191 reported murders. In 83.1% of these cases, the victims were known by the offenders.

The value of property stolen in actual offenses of murder totaled \$68,525 for 2010.

RAPE

Definition: The carnal knowledge of a female forcibly and against her will, regardless of age. Statutory rape is not included in this category.

Forcible rape differs from other violent crimes in that the victim, in many cases, is hesitant to report the offense to the police. The rigors of court proceedings and the embarrassment caused by the social stigma placed on this crime have a deterrent effect on the victim's willingness to make the crime known to the police.

For the purpose of Uniform Crime Reporting, rape is divided into two categories: (1) rape by force; (2) attempts to rape. Assaults to commit forcible rape are included in the index offenses category of rape.

SUMMARY ANALYSIS

A total of 1,467 forcible and attempted rapes was reported by law enforcement agencies in 2010.

Forcible rapes accounted for approximately 8.2% of all violent crimes and approximately 1.0% of all index crimes reported.

A total of 566 rapes was cleared by arrest or exceptional means, resulting in a clearance rate of 38.6%.

Of all persons arrested for rape, 34.7% were under the age of 25; 73.8% were White, 17.7% were Black, 8.5% were Indian, and 0.0% were Asian.

The value of property stolen in the actual offense of rape totaled \$22,146.

ROBBERY

Definition: The felonious and forcible taking of property from the care, custody, or control of a person or persons by violence or putting the person in fear and against his/her will.

In order for the crime of robbery to take place, the victim must be present. Robberies are reported in the following categories: gun, knife or cutting instrument, other dangerous weapon, and strong-arm robbery.

SUMMARY ANALYSIS

A total of 3,320 robberies was reported by law enforcement agencies in 2010.

Robberies accounted for 18.5% of all violent crimes and 2.3% of all index crimes reported. A total of 851 robberies was cleared; this was a clearance rate of 25.6%.

The highest percentage of persons arrested for robbery (11.5%) was in the 25-year-old to 29-year-old age category. Of all persons arrested for robbery, 41.8% were White, 51.7% were Black, 5.6% were Indian, and 0.9% were Asian.

The largest number of actual offenses of robbery (994) occurred in the highway (streets, alleys, etc.) robbery category, representing 29.9% of all reported robberies. Armed robbery (with any type of weapon) was responsible for 61.7% of the total number of offenses.

The value of property stolen in robberies totaled \$5,001,370 or 2.4% of the total value of property stolen during the year.

AGGRAVATED ASSAULT

Definition: The unlawful attack or an attempt to attack through force or violence to do physical injury to another.

An aggravated assault may be committed with a gun, knife or other cutting instrument, other dangerous weapon, or through the aggravated use of hands, fists, or feet. All assaults, where no weapon is used and which result in minor injuries, are classified as non-aggravated and are not counted in the index crime totals.

SUMMARY ANALYSIS

A total of 12,941 aggravated assaults was reported by law enforcement agencies in 2010.

Aggravated assaults accounted for 72.2% of all violent crimes and 8.9% of all index crimes reported.

A total of 6,272 aggravated assaults was cleared by arrest or exceptional means, representing a clearance rate of 48.5%.

The 25-year-old to 29-year-old age group, at 17.6% accounted for the highest percentage of persons arrested for aggravated assault. Of all persons arrested, 65.0% were White, 25.5% were Black, 8.9% were Indian, and 0.6% were Asian.

Of all types of aggravated assaults, the use of "other dangerous weapon" was the most prevalent; this category reflected 4,543 offenses or 35.1% of all aggravated assaults.

BURGLARY

Definition: Any unlawful or attempted forcible entry of a structure to commit a felony or larceny, even though force may not have been used to gain entry.

For Uniform Crime Reporting purposes, the offense of burglary is divided into three categories: (1) forcible entry; (2) unlawful entry; (3) attempted forcible entry.

SUMMARY ANALYSIS

A total of 37,358 burglaries was reported in 2010.

Burglaries accounted for 29.4% of all non-violent crimes and 25.7% of all index crimes reported.

A total of 3,077 burglaries was cleared by arrest or exceptional means. This was a clearance rate of 8.2%.

The 25-year-old to 29-year-old age group accounted for the highest percentage of adults arrested for burglary at 16.1%. The 13-year-old to 14-year-old age accounted for the highest percentage of juvenile offenders arrested.

Persons under the age of 18 were accountable for 25.2% of all burglary arrests and 1.1% of burglaries cleared.

Of all persons arrested, 65.3% were White, 26.6% were Black, 7.9% were Indian, and 0.3% were Asian.

Forcible entry was the most prevalent of the three categories of burglary, with 25,847 actual offenses. This represents 69.2% of the total burglaries committed. Unlawful entry (no force) constituted 25.5%, while 5.3% were attempts.

The value of property stolen in actual offenses of burglary totaled \$70,636,797 or 33.5% of the total value of property stolen during 2010.

Residential burglaries accounted for 79.3% of the total offenses reported, with a total dollar loss of \$54,684,972. The number of residential burglaries was 29,618. Daytime hours accounted for 40.8% of all burglaries; 29.8% took place in the nighttime. The remainder occurred at undetermined times.

LARCENY

Definition: The unlawful taking of property of another with intent to deprive him/her of ownership without the use of force, violence, or fraud.

For reporting purposes, larcenies are specifically categorized in crimes resulting from: (1) pocket picking, (2) purse snatching, (3) shoplifting, (4) theft from a motor vehicle, (5) theft of motor vehicle parts and accessories, (6) bicycle theft, (7) theft from buildings, and (8) theft from any coin operated machine. Any remaining crimes of theft are classified in the "all other" category.

SUMMARY ANALYSIS

A total of 79,741 larcenies was reported by law enforcement agencies.

Larceny accounted for 62.7% of all non-violent crimes and 55.0% of all index crimes reported.

There were 14,281 larcenies cleared by arrest or exceptional means for a clearance rate of 17.9%.

At 12.2%, the 25-year-old to 29-year-old age category range reflected the largest number of larceny arrests.

Persons under the age of 18 were accountable for 24.9% of all larceny arrests and 3.3% of larceny clearances.

Of all persons arrested, 70.2% were White, 22.8% were Black, 6.0% were Indian, and 0.9% were Asian.

The value of property stolen in larceny offenses totaled \$75,781,002, representing 35.9% of the total value of property stolen.

MOTOR VEHICLE THEFT

Definition: The unlawful taking or attempted taking of a motor vehicle.

The term "motor vehicle" includes those self-propelled vehicles which run on a land surface and not on rails.

Thefts of farm equipment, bulldozers, airplanes, and construction equipment are not included in the definition of a motor vehicle. Joyriding is included in this category.

Motor vehicle theft is divided into three categories: (1) autos; (2) trucks and buses; and (3) other vehicles.

SUMMARY ANALYSIS

A total of 10,076 motor vehicle thefts was reported by law enforcement agencies in 2010, representing a total value of \$59,428,704.

Motor vehicle theft made up 7.9% of all non-violent crimes and 6.9% of all index crimes reported.

A total of 1,118 motor vehicle thefts was cleared by arrest or exceptional means for a clearance rate of 11.1%.

At 16.2%, the 25-year-old to 29-year-old age category accounted for the highest percentage of all those arrested for motor vehicle theft.

Juvenile arrests accounted for 21.5% of all motor vehicle theft arrests. Of the juvenile arrests, 53.6% were of 13, 14, and 15 year old offenders.

Of all persons arrested, 76.3% were White, 14.4% were Black, 8.8% were Indian, and 0.4% were Asian.

The recovery rate for motor vehicle theft was 63.8% with 6,427 recovered.

The average value of motor vehicles stolen during 2010 was \$5,898.05.

ARSON

Definition: Any willful or malicious burning, or attempt to burn, with or without intent to defraud.

The term "Arson" applies only to those fires determined through investigation to have been willfully or maliciously set.

Attempts to burn are included in the arson report, but fires of suspicious or unknown origin are not.

SUMMARY ANALYSIS

A total of 1,011 cases of arson was reported by law enforcement agencies in 2010.

Of those reported, 579 were structural, 236 were mobile, and 196 accounted for all others.

Arson clearances by arrest or exceptional means totaled 219, for a clearance rate of 21.7%. Persons under 18 years of age accounted for 101 of those clearances.

The total estimated value of property damaged by reported arson in 2010 was \$13,192,270. This is a decrease of 35.9% from the \$20,577,947 worth of property damaged by arson in 2009.

The guidelines used by fire departments to report arson to the State Fire Marshal's Office differ from those in which the Uniform Crime Reporting Program obtains its data from law enforcement agencies. PROPERTY STOLEN AND RECOVERED

OKLAHOMA STATE BUREAU OF INVESTIGATION

PROPERTY

Each month law enforcement agencies submit supplementary data pertaining to crimes in which money or property is stolen. These figures are subsequently compiled and analyzed and the resultant figures provide information concerning the value of property stolen and recovered by type of property and offense.

The total value of property stolen in Oklahoma during 2010 was \$210,938,544. This is a decrease of \$4,360,752 or 2.0% less than the previous year.

Law enforcement agencies recovered approximately 1.1% more property in 2010 with \$44,446,005 or 21.1% of the total property stolen.

OKLAHOMA STATE BUREAU OF INVESTIGATION

ARREST AND CLEARANCE DATA

The Oklahoma Uniform Crime Reporting Program requests the monthly submission of data concerning persons arrested in Oklahoma. A record of total arrest activity for criminal acts in both Part I and Part II classifications is collected and analyzed according to age, sex, and race. With the exception of arrests for driving under the influence and transporting an open container, traffic arrests are not reported.

A person is counted on the monthly arrest report each time he is arrested. A person may be arrested several times during the month for such crimes as public drunkenness, disorderly conduct, and similar violations. It should be noted that if a person is charged with several different crimes at the same time, the arrest is shown only for the highest offense the person committed at that time.

A total of 158,262 arrests was reported in 2010. Juveniles accounted for 18,943 of those arrested. The number of arrests decreased by 7,009 or 4.2% from 2009.

An analysis of reported arrests for 2010 indicates 15.3% of all arrests occurred in the index offenses. The highest clearance rate of a particular index offense occurred in the murder category with 72.8% being cleared by arrests or exceptional means.

Alcohol related arrests (driving under the influence, drunkenness, and other liquor law violations) constituted 27.3% of the total arrests reported in 2010. This percentage represents the arrest of 1,248 juveniles and 41,906 adults. The highest percentage of arrests occurred in the category of drunkenness which represented 52.0% of arrests made for all alcohol related offenses.

CLEARANCE RATE

For crime reporting purposes, a crime index offense is cleared when: (1) a law enforcement agency has identified the offender; (2) there is enough evidence to charge the offender; and (3) the offender is actually taken into custody. The arrest of one person may clear several crimes or the arrest of several persons may clear only one crime. The number of arrests and the number of clearances for any particular offense should not be compared as the numbers may not, and likely will not, be the same.

Clearances are also reported when some element beyond law enforcement control precludes the filing of formal charges. Examples include the death of the offender, particularly in the case of a murder/suicide, the handling of juveniles, and other exceptional circumstances.

COLLECTION OF DISPOSITIONS

The Oklahoma Uniform Crime Reporting Program requires the collection of juvenile arrest dispositions as a source of meaningful information on action against juveniles who have been taken into custody or arrested by police. When adults are arrested, they are usually held for felony or misdemeanor prosecution in the appropriate court. This is not necessarily the case with juveniles. Several disposition options are available and the one chosen depends upon the seriousness of the offense and the juvenile's prior record. Many are warned by the police and released to their parents, a relative, a friend or guardian. Sometimes they are referred to the probation department or some other branch of the juvenile court. In other instances, they may be referred to welfare agencies, other police agencies, or to criminal or adult court by waiver of the juvenile court.

Here, the word "arrest" refers to the police handling of all juveniles who have committed a crime and are taken into custody when, under the same circumstances, the crime would warrant the arrest of an adult. Police "contacts" with juveniles are not counted as arrests where no offense has been committed. Instances where juveniles are taken into custody for their own protection and not because they have committed a crime, such as in neglect cases, are not listed as arrests.

OKLAHOMA STATE BUREAU OF INVESTIGATION

LAW ENFORCEMENT EMPLOYEE DATA

Definition: Persons employed as full-time sworn officers and full-time civilian employees.

The figures below represent a compilation of forms sent to all reporting law enforcement agencies throughout the state on an annual basis.

With the exception of persons who perform guard or protection duties and who are not paid from police funds, i.e., school crossing guards, special officers, and merchant police, these figures reflect the number of full-time sworn personnel with full arrest power, including the chief, sheriff, commissioner, and superintendent. The figures do not include employees of the Oklahoma Highway Patrol, the Oklahoma State Bureau of Investigation, or those law enforcement agencies which do not contribute to the Uniform Crime Reporting Program.

Civilians include clerks, radio dispatchers, meter maids, stenographers, mechanics, etc., provided these persons are full-time employees of the agency. Neither employees who are compensated from a source other than police funds, nor those receiving salaries from federal grants are included. In 2010, Oklahoma's law enforcement rate was 2.7 employees per 1,000 inhabitants.

STATE INCIDENT BASED REPORTING SYSTEM (SIBRS)

OKLAHOMA STATE BUREAU OF INVESTIGATION

State Incident-Based Reporting System (SIBRS)

Overview of Incident-Based Reporting

SIBRS is an online incident-based reporting system available to Oklahoma law enforcement agencies. The no-cost records management system is maintained by OSBI and is offered to all reporting jurisdictions. In contrast to traditional summary reporting, incident-based reporting links each offense to the offender, victim, and subsequent arrest, thereby providing a detailed description of the incident. The overarching objective of SIBRS is to better understand the full scope of crime in Oklahoma. Ultimately, the goal is to transition all agencies from summary-based to incident-based reporting.

SIBRS participation directly affects contributing agencies. In addition to having instant access to submitted reports, participating agencies can also access reports submitted by other agencies, which promotes communication between jurisdictions. The crime mapping feature is an additional benefit available in SIBRS. Crime mapping provides agency administrators the opportunity to identify crime “hot spots” and allocate resources accordingly. Finally, the hierarchy rule (where only the most serious offense is reported) is not applied to incident-based reports; instead, each crime committed during the incident is counted.

SIBRS Participation

As of December 31, 2010, 151 of the 315 law enforcement agencies in Oklahoma participate in SIBRS, including 21 sheriffs’ offices and 130 local police departments. Compared to other states, SIBRS participation is high in Oklahoma; however, most contributing agencies serve smaller populations. Of the contributing agencies, only 13 serve populations greater than 15,000.

An estimated 15% of Oklahomans live in a SIBRS jurisdiction, and approximately 10% of crime in Oklahoma is committed in a SIBRS jurisdiction.

Advantages of SIBRS

SIBRS offers many advantages compared to traditional Summary reporting, including:

- Data are collected for 46 crimes (compared to eight in Summary reporting);
- Arrests and clearances are linked to specific incidents;
- Attempted crimes are separated from completed crimes;
- Since SIBRS captures incidents, the hierarchy rule does not apply;
- Crime mapping is available to assist with agency planning;
- Data sharing with other contributing agencies throughout the state;
- The definition of rape has been expanded to include male victims;
- A third crime category, Crimes against Society, was created; it includes drug-related crimes and prostitution.

SIBRS Data Samples

The following two tables demonstrate the utility of incident-based reporting. Table one presents total reported offenses for 2010 in SIBRS jurisdictions. Table two provides a breakdown of stolen property, by property type. The final two graphs separate assaults by type (aggravated assault, simple assault, and intimidation (including threats)). Additional data will be published as more agencies transition to SIBRS.

**INDEX CRIME
OFFENSES
BY
CONTRIBUTOR**

OKLAHOMA STATE BUREAU OF INVESTIGATION

CONTRIBUTORS

The following section sets forth a specific breakdown of index crime offenses by each contributing law enforcement agency for the years 2008, 2009, and 2010.

It must be remembered that the total index crime offenses reported are shown here, and the statistics include each month an agency reported. It should be noted that all agencies submitted reports in full for each year.

As is apparent, the delinquency of reports greatly hampers the Oklahoma Uniform Crime Reporting Program. In some states, crime trend data is only computed for those agencies that have a complete reporting record for the year or years. Others use estimated data for those agencies that did not submit reports for each month. The Oklahoma Uniform Crime Reporting Program employs the total number of offenses reported in its analysis as part of a continuing endeavor to provide complete crime statistics for the State of Oklahoma.

NOTE: The section is listed in alphabetical order by county and then in numerical order by the Originating Agency Identifier (ORI) assigned to reporting agencies within each county by the Federal Bureau of Investigation.

An alphabetical listing of all reporting agencies has been included in this publication; these agencies also have been cross-referenced to their respective counties.

It is our hope this will assist our users in locating specific agencies if the county is unknown.

POPULATION FIGURES

The population figures in this publication are used by the authority of the Federal Bureau of Investigation. Some communities have more growth than the average used by the FBI each year since a census is only taken each decade. This can have an influence on the crime rate per 1,000 population as shown in this section.

* Campus enrollment is not included in the state's population total; it is used to tabulate the crime rate only.

Please Note: The Arson offenses in this contributor report have not been included in the Total Crime Index or Crime Rate Per 1,000 figures.

POPULATION FIGURES

- The population figures in this publication are used by the authority of the Federal Bureau of Investigation. Some communities have more growth than the average used by the FBI each year since a census is only taken each decade. This can have an influence on the crime rate per 1,000 population as shown in this section.

PUBLICATION CORRECTION

- In the 2008 and 2009 publications of "*Crime In Oklahoma*," the 2008 and 2009 total Crime Index totals were reported incorrectly for the Calumet Police Department, Kiefer Police Department, Kaw City Police Department, and the Grandfield Police Department. The information has been corrected in the 2010 edition which represents a three-year comparison of their corrected Crime Index totals.

CONTRIBUTOR PARTICIPATION

OKLAHOMA STATE BUREAU OF INVESTIGATION

HISTORY OF PROGRAM PARTICIPATION

There are approximately 450 sheriffs' offices and police departments in Oklahoma. During 1973, an average of 65 law enforcement agencies contributed monthly Uniform Crime Reports directly to the Federal Bureau of Investigation.

The Oklahoma State Bureau of Investigation assumed the statewide administration of the Uniform Crime Reporting Program on September 1, 1973. Since that time, an astounding increase in the number of agencies who report directly to the Oklahoma State Bureau of Investigation has been realized.

The table below sets forth the number of law enforcement agencies, by type, that have participated in the Oklahoma Uniform Crime Reporting Program for the years 2008, 2009, and 2010.

OKLAHOMA STATE BUREAU OF INVESTIGATION

CONTRIBUTOR HISTORY

There were 318 direct reporting law enforcement agencies in 2010 that provided UCR data directly to the Oklahoma State Bureau of Investigation's state repository.

The following is a list of agencies that reported partial data or failed to report data during calendar year 2010. Statistics in this publication are reported as they are received from an agency during the calendar year and data received is not calculated or averaged to compensate for partial or missing data. For this reason, there may be discrepancies when comparing data in this publication with data in "Crime in the United States."

STATEMENT OF POLICY AND REGULATIONS

STATEMENT OF POLICY

The following regulations will be observed by this agency concerning the release of Uniform Crime Reporting statistical information. Employees of the agency will observe these procedures and will not deviate from this policy without the express consent of the Director of the Oklahoma State Bureau of Investigation. All information to be released will originate from the Field Services Unit of the Oklahoma State Bureau of Investigation.

REGULATIONS

1. This agency will publish an annual report reflecting the crime in Oklahoma. This report will be distributed to the Governor, to members of the Legislature, to the Attorney General, to law enforcement agencies, to the State Library System, and to any agency or committee dedicated to law enforcement or criminal justice work.
2. Published annual reports will be released to the above named agencies at no charge. They will then be released to individuals or agencies extraneous to the criminal justice community who shall pay a fee of five dollars (\$5.00) for every copy received.
3. UCR Information Requests:
 - A. Information contained in the published annual report may be released via telephone, letter, etc., to any interested party.
 - B. All requests for unpublished information from agencies or individuals extraneous to the criminal justice community should be submitted on an OSBI OPEN RECORDS ACT REQUEST FORM (ORA-1.) In accordance with the Oklahoma Open Records Act, all requests may be subject to a charge.
 - C. Law enforcement agencies may receive interim, unpublished, specialized reports identifying their agency only, provided the request is reasonable. Law enforcement agencies may also receive their respective county totals along with state or regional totals. All requests should be directed to the Supervisor of the Field Services Unit.

APPENDIX

STATISTICAL VARIABLES

From the Uniform Crime Reporting (UCR) Program's inception, it was obvious the quality of the program would be limited since it would not be possible to account for every crime. When analyzing UCR data, it must be remembered that these statistics are based upon offenses reported or known to the police.

Citizens do not report crimes in many instances for various reasons. Victims may consider the offenses to be of little consequence; they believe there is nothing the police can do about them; or they fear retaliation from offenders because they have shared willingly in such offenses as illegal sex acts, gambling, or drug use. Consequently, some offenses are never entered into the present statistical reporting system. A national survey conducted for the President's Commission on Law Enforcement and Administration of Justice indicates half of the victimizations which occur are not reported to law enforcement authorities.

In some cases, law enforcement agencies themselves question the merit of the UCR Program. A common complaint concerns jurisdiction when a sheriff's department is called upon to investigate a crime within the city limits and makes an arrest in connection with that offense. The sheriff's department feels it is necessary to score the offense but, under UCR guidelines, the city must report the offense, the clearance, and the arrest. It must be remembered that Uniform Crime Reports are collected for the purpose of measuring the extent and type of crime by geographical location; they are not activity reports.

The crime information gathered and disseminated by this report is the most accurate currently available in Oklahoma. Caution has been and will continue to be exercised when direct statistical comparisons are suggested, primarily because of a great number of socioeconomic issues. Likewise, when comparing offenses and arrest data, it should be remembered that crimes relate to events, while arrests relate to people. A single crime may involve several offenses, multiple offenders and/or victims.

Some additional conditions which will, by type and volume, affect the crime that occurs from place to place are outlined below. These same conditions will also affect the amount of crime actually reported.

1. Density and size of the community population and the metropolitan area of which it is a part.
2. Composition of the population, particularly in reference to age, sex, and race.
3. Economic status and mores of the population.
4. Relative stability of population, including commuters, seasonal and other transient types.

5. Climate, including seasonal weather conditions.
6. Educational, recreational, and religious characteristics.
7. Effective strength of the police force.
8. Standards governing appointment to the police force.
9. Policies of the prosecuting officials and the courts.
10. Attitude of the public toward law enforcement problems.
11. The administrative and investigative efficiency of the local law enforcement agency, including the degree of adherence to reporting crime statistics.

Because they are influenced by many variables, current methods of gathering and reporting offenses and arrest data provide a less than complete picture of criminality in our society. However, an alternative information system, which can overcome the present program's shortcomings and more adequately perform this task, is currently unavailable.

GLOSSARY OF TERMS

ADULT - For Uniform Crime Reporting purposes, a person 18 years of age or more.

ARREST RATE - The number of arrests reported for Part I and Part II offenses for each unit of population, generally per 100,000. Arrest rates are computed in the same manner as crime rates.

CLEARANCE RATE - The number of clearances reported for Part I offenses. This rate is determined by dividing the number of clearances by the number of offenses.

CLEARED BY ARREST - For UCR purposes, an offense is cleared by arrest or solved when at least one person is (1) arrested, (2) charged with the commission of the offense, and (3) turned over for prosecution.

CRIME FACTORS - Conditions which affect the amount and type of crime that occurs in a geographical area.

CRIME INDEX - The sum total of the seven major offenses used to measure the extent, fluctuation, and distribution of crime in a given geographical area. Crime classifications used in the index are: (1) murder, (2) forcible rape, (3) robbery, (4) felonious assault, (5) breaking and entering, (6) larceny (theft), and (7) motor vehicle theft. Each of these offenses is referred to as an "index crime."

CRIME RATE - The number of index crimes reported for each unit of population, generally 100,000. Crime rates are computed for communities by dividing the number of index crimes by the population and multiplying the answer by 100,000.

EXCEPTIONAL CLEARANCE - A crime solution or clearance recorded when some element beyond law enforcement control precludes the placing of formal charges against the offender.

JUVENILE - For UCR purposes, a person under the age of 18.

NON-VIOLENT CRIME - Consists of the index crimes of breaking and entering, larceny (theft) and motor vehicle theft.

PART I OFFENSES - The first of two main categories of crime classes comprising a universal crime classification system established for crime reporting purposes. Part I offenses are by their nature more serious and/or occur with greater frequency. The monthly tabulation of Part I offenses provides a count of "offenses known."

PART II OFFENSES - The second of two main categories of crime classes comprising a universal crime classification system established for crime reporting purposes. Part II offenses are generally less serious in nature and/or occur less frequently. Monthly tabulations of Part II offenses are limited to arrest information only.

VIOLENT CRIME - Consists of the index crimes of murder, rape, robbery, and aggravated assault.
