

2024 OSBI Outreach Training

*Since 1953 the Oklahoma State Bureau of Investigation's Criminalistics Services Division (OSBI Laboratory) has provided a multitude of forensic science services to law enforcement agencies operating within Oklahoma. In an effort to continually update our law enforcement partners, the OSBI Laboratory is offering two **free training courses**:*

OSBI Lab Outreach Training, CLEET # 22-2576

This 4-hour CLEET-accredited CE training takes place at the OSBI Forensic Science Center (FSC) in Edmond as well as host locations throughout the state. This training is designed for both new and seasoned officers, and includes information about:

- evidence-related information as it pertains to evidence collection, packaging, evaluation, as well as submission tips.
- each laboratory unit and locations
- available laboratory services and service limitations

To accommodate your scheduling needs, the training is being offered on multiple days and at different times. NOTE: for split-session classes which break up the training into two 2-hour mini blocks with a lunch break in between; lunch is on your own and is not provided.

OSBI Physical Evidence Outreach Training, CLEET # 22-31895

This 2-hour CLEET-accredited CE training takes place at the OSBI Forensic Science Center (FSC) in Edmond as well as host locations throughout the state. This training is designed for new officers, Evidence Officers/Technicians, as well as seasoned officers that would like a refresher/update in recommended practices. The training includes information on evidence handling, packaging, options for submissions, discipline-specific submissions, how to expedite analyses, and evidence destruction. Limited hands-on exercises are included. To accommodate your scheduling needs, the training is being offered on multiple days and at different times.

To receive this CLEET-accredited training:

1. HOST TRAINING AT YOUR LOCATION:

Contact OutreachTraining@osbi.ok.gov to schedule a date. The hosting agency will be responsible for securing the training location/room, inviting appropriate individuals/agencies to the training, and providing access to PowerPoint.

2. ATTEND TRAINING AT THE FORENSIC SCIENCE CENTER in EDMOND:
