

OSBI Commission Update

February 17, 2021

“One Team One Mission”

In the news!

OSBI @OSBI_OK · Oct 14, 2020

As a way of further refining our crime scene skills, the #OSBI is hosting a FARO workshop for our agents, & officers from @OKCPD & Bossier City, LA PD. The training offers attendees hands-on, advanced skills to get the most out of the scanner and its software. #OneTeamOneMission

...

Ricky Adams
@OSBI_Director

...

Elite organizations do not accept mediocrity that is why the OSBI invests in training, technology & people. Over 50% of the State's IAI Crime Scene certification personnel are with the OSBI, & 2 of the 3 Senior Crime Scene Analysts in Okla. are OSBI agents.

OSBI Crime Scene Agents Earn Rigorous Certification

Ricky Adams
@OSBI_Director

So proud of the OSBI team for their hard work achieving a 82.4% violent crime clearance rate in 2019. Resources were key to that success! Thank you Oklahoma Legislature for the assistances.

Oklahoma State Bureau of Investigation – Office of Criminal Justice Statistics		
OSBI Violent Crime Clearance Rate Compared to National Violent Crime Clearance Rate, 2019		
OSBI Rate	State of Oklahoma Rate	National Rate
82.4%	35.5%*	45.5%**

 We are up and running with our new Y-screen assay and QuantStudio 5 lab instruments!! The instruments have been validated and are now being utilized for casework.

Why, you ask, is this important? 🙋

Ricky Adams @OSBI_Director · Oct 29, 2020
 This is the tragic reality for victims that COPS see everyday. No one should be allowed to hurt another human being over & over again. This is just one of the crimes that some think is nonviolent. Really? This is about good vs. evil.

Advisory

OSBI MAKES ARRESTS IN 2018 CHOCTAW, OKLA., COLD CASE Message Expired

FOR IMMEDIATE RELEASE:
November 10, 2020

CHOCTAW, Okla. – The Oklahoma State Bureau of Investigation (OSBI) makes three arrests in the 2018 murder of Eric Trammell. Trammell, 35, was found dead on NE 36th Street in Choctaw and had been shot multiple times.

Yesterday, OSBI agents, with assistance from the U.S. Marshals and the Oklahoma City Police Department Violent Crime Apprehension Team, arrested three suspects for Trammell's murder. Christopher L. Dawson, 19, Jaylen Williamson, 20, and a 16-year-old juvenile were arrested and taken to the Oklahoma County Jail. A fourth suspect, Jaylen Brown, 20, is already in jail facing charges for a different murder. It is expected all four will be charged with First Degree Murder.

On August 27, 2018, the Choctaw Police Department requested OSBI investigate Trammell's death. OSBI agents located video surveillance from the area where Trammell was found and discovered he met with four men about 30 minutes prior to his murder. The video showed the four suspects arrived together in the same car. Agents were able to identify Brown from the video but required assistance to identify the other three. In May, 2020, the OSBI offered a \$5,000 reward for assistance in identifying the other suspect.

Advisory

OSBI ICAC UNIT ARRESTS HYDRO MAN ON CHILD PORNOGRAPHY CHARGES Message Expired

FOR IMMEDIATE RELEASE:
OCTOBER 9, 2020

HYDRO, Okla. – Agents from the Oklahoma State Bureau of Investigation (OSBI), assisted by officers from the Caddo County Sheriffs Office and the Hydro Police Department, served a search warrant in the 100 block of East Main Street in Hydro yesterday. As a result of the search warrant, 20-year-old Austin Michael Glenn was arrested and faces multiple child pornography charges.

The case originated in August when the National Center for Missing and Exploited Children (NCMEC) forwarded a cyber tip they received from an electronic service provider to the OSBI. The OSBI Internet Crimes Against Children (ICAC) Unit opened an investigation upon receiving the tip. Based on their investigation, Glenn was arrested yesterday without incident and booked into the Caddo County Jail.

Glenn is charged with Possession of Child Pornography, Distribution of Child Pornography and Violation of the Oklahoma Computer Crimes Act.

If you suspect a child is being sexually exploited, contact the National Center for Missing and Exploited Children immediately at 1-800-THE-LOST or cybertipline.org. You can also contact the OSBI Internet Crimes Against Children (ICAC) Unit at (800) 522-8017 or tips@osbi.ok.gov.

Support Services

- OSBI General Revolving Fund 200 receipts of \$7,527,314 were **\$225,386 (2.96)** below the second quarter projection of \$7,752,700 and **\$582,406 (7%)** below the \$8,109,720 received for the same quarter in FY20.
- OSBI AFIS Revolving Fund 210 receipts of \$1,996,219 were **\$128,781 (6.1%)** below the second quarter projection of \$2,125,000 and **\$302,246 (-13%)** less than the \$2,298,465 received for the same quarter in FY20.
- OSBI FSIA Revolving Fund 220 receipts of \$2,109,536 were **\$140,464 (6.2%)** below the second quarter projection of \$2,250,000 and **\$322,745 (13.0%)** less than the \$2,432,281 received for the same quarter in FY20.
- We were predicting that the SDA licensing fee would under-produce this year due to the legislated changes that went into effect November 2019. The estimated revenue for FY21 for SDA is \$3,000,000. Based on actual collections we received of 1,428,710 we are estimating revenue on June 30 of \$2,857,000. The majority of SDA transactions are for renewals and very few applications for new licenses. We expect this decline to continue.

SDA Receipts

INVESTIGATIVE SERVICES

- During this quarter, the Investigative Division opened 321 new cases, down 19.14% from the 397 opened in the second quarter of FY20, but up 7.36% from last quarter. The decrease is primarily due to a decline in the number of background investigations opened, which dropped from 156 opened during the second quarter of FY20 to 63 this quarter. There were 93 fewer background investigations opened total, although there was an increase in the number of judicial backgrounds initiated (-100 Governor's Office, +13 Judicial, and 6 fewer employee backgrounds).

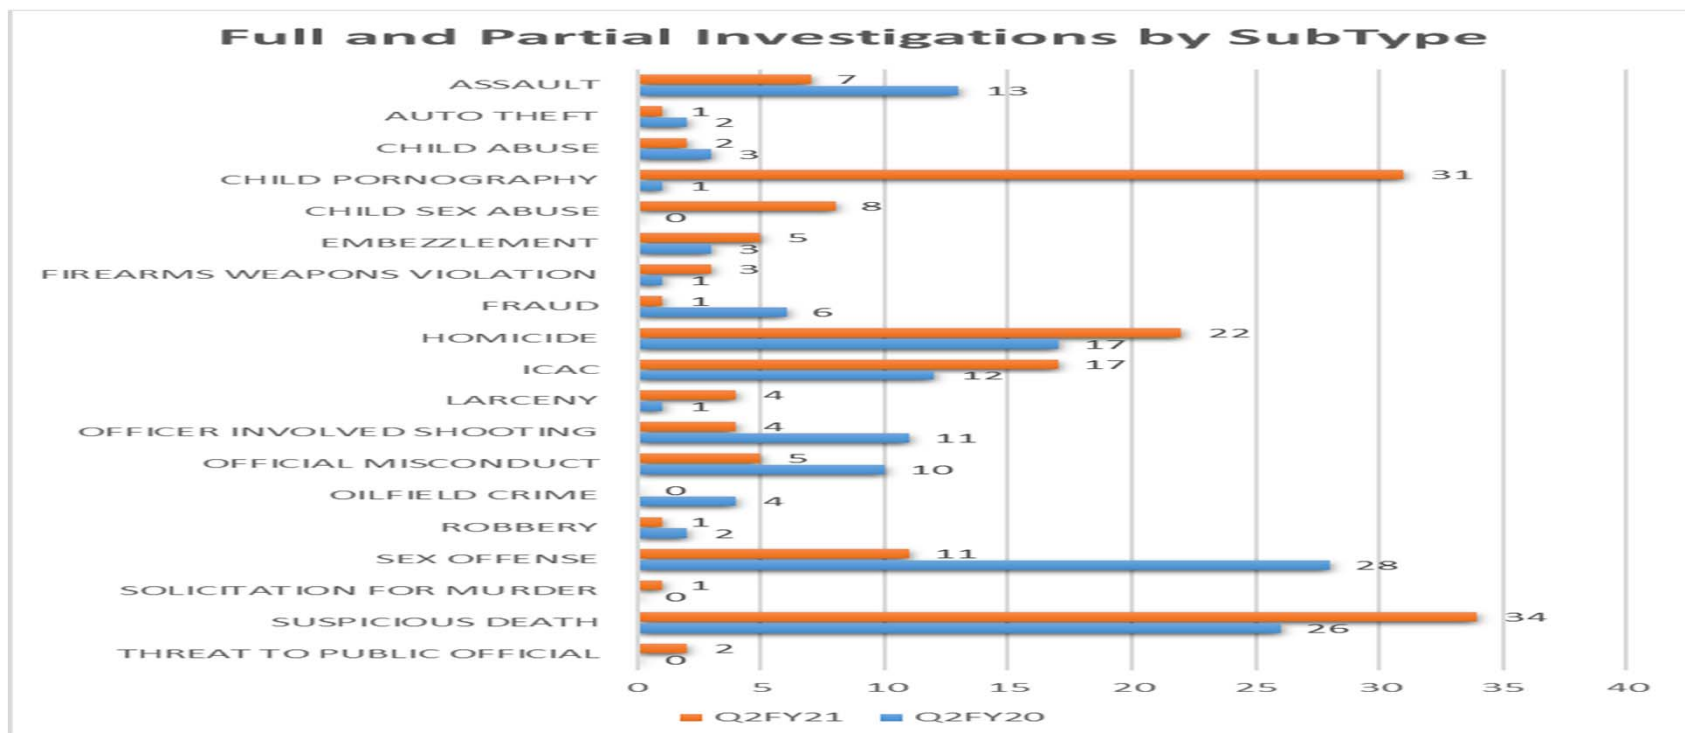

- Cases this quarter, as in the past, were opened primarily at the request of local police departments, sheriff's offices, district attorneys, or other state agencies. It is anticipated that in the near future OSBI will likely see an increase in requests for service from our Federal Agency partners particularly in Eastern Oklahoma in the wake of the McGirt Supreme Court ruling.

INVESTIGATIVE SERVICES

➤ Although the total number of cases opened decreased due to a decline in background investigations, the total number of full investigations initiated increased by 51.8% with 126 opened in the second quarter of FY21 compared to 83 opened in the same quarter of FY20. The types of crimes investigated as a full or partial investigation shifted somewhat, with notable increases in the number of child pornography, child sex abuse, homicide, ICAC, and suspicious death cases and a notable decrease in the number of assaults, officer-involved shootings, official misconduct and sex offense cases opened. (Note: Some categories with limited cases or no change were not reflected in the chart below.)

CRIMINALISTIC SERVICES DIVISION

- The CODIS unit entered 323 convicted offender profiles, 632 arrestee profiles, 40 suspect profiles, and 54 forensic samples into the CODIS database during this quarter.
- The CODIS lab also completed analysis on 42 offender hits in an average of 6.67 days, resulting in investigative leads in 12 sex offenses, 2 assaults, 1 robbery, 19 burglaries, 2 auto thefts, 4 larcenies, 1 suspicious death, and 1 unknown offense.
- CODIS completed analysis on 41 arrestee hits in an average of 6.81 days, resulting in leads in 4 homicides, 5 SAs, 4 robberies, and 19 burglaries, 4 auto thefts, 3 larcenies, and 2 unknown offenses.
- CSD employees received 252 subpoenas and made 21 court appearances this quarter. These numbers are down do to COVID-19 closures.
- CSD personnel responded to 3 crime scenes and 21 morgue requests during CY20, down from 12 crime scenes and 27 morgue requests in CY19.
- In 2019, as a result of the Governor's TF on Sexual Assault Evidence, legislation was passed that requires law enforcement to submit all SA Kits to forensic labs within 20 days of collection unless the victim specifically requests the kit not be analyzed. This mandatory submission has resulted in the OSBI lab seeing our submittals roughly triple. Historically, we received ~30 SA kits each month. Currently, **we are receiving ~96 SA kits per month**. The majority of our current biology staff is in training and have not been released to independently perform all analysis on SA kits. As a result of the increase in submittals and focus on training, our experienced staff cannot keep up with the analysis needed on these cases. At the present time, it is taking us an average of 210 days to analyze a SA kit. It is critical that we hire additional staff for the SA project in order to effectively process these cases for our customers.

CRIMINALISTIC SERVICES DIVISION

Genetic Genealogy - Our partnership with Parabon NanoLabs continues. During this quarter, charges were refiled in the serial rapist case identified through FGGS, awaiting arrest of suspect in 1992 rape case, awaiting kinship testing in 2007 homicide, working on whole genome sequencing of samples in 1994 homicide, working to ship bone samples for extraction in 1995 unidentified remains case, and working to ship samples from an unidentified infant found in 1993.

Customer Feedback – Normally our customer surveys are outstanding. During this cycle we received one unfavorable rating on timeliness from a District Attorney's Office with a note "Failure to complete analysis in a timely manner for court or filing decisions." The QM contacted this DA's Office to discuss the current reasons for extended times for certain analyses and encouraged the customer to provide specific examples so that each could be addressed directly. The current SAK backlog combined with increasing caseload and COVID have slowed the turnaround time. **FIX: (BUDGET & ADDITIONAL PERSONNEL)**

AFIS/IAFIS – Fingerprints - The LEU had 41 Forward AFIS hits and 4 Reverse Search hits. The Unit had 2 Forward NGI hits and 7 NGI Reverse Search hits. Tulsa PD reported 15 Forward AFIS hits, 1 Reverse Search hit, and 2 Forward FBI NGI hits.

IBIS - The Firearms Unit entered 384 items into the Integrated Ballistic Identification System which resulted in eighteen (18) potential hits.

CODIS - During this quarter, the CODIS unit completed analysis on 32 plates. For convicted offender analysis, the average turnaround time was 55.34 days. For arrestees, the average days open was 21.75. They entered 323 convicted offender, 632 arrestee, 40 suspect, and 54 forensic profiles into the database.

Digital Evidence Unit - The DEU completed 59 cases this quarter. Fourteen of those cases were ICAC cases. The DEU analyzed the following items: 83 cell phones, 6 computers, 13 hard drives, and 11 pieces of loose media.

INFORMATION SERVICES DIVISION

- 286 police departments, 26 campus police departments, 72 sheriff's offices, six state agencies, and 12 tribal law enforcement agencies reported in SIBRS.
- In CY-20 there were a total of 615 Mobile ID searches, which resulted in 49 FBI RISC hits and 326 OSBI AFIS hits.
- The Self-Defense Act (SDA) Unit issued 21,244 licenses in CY-20. The total number of applications received was down 27.6% from CY-19. The SDA system auto approved 19,472 of those applications or 91.7% of all applications approved during the calendar year. There were 239,458 active SDA License holders at the end of CY-20.
